- Worked on a CRUD project where we can add images to our card and can customize them .

## Education

Bachelor of Science

Mathematics, Alipurduar College (Start Date: Nov. 2021 - Ongoing)

## Summary

Hello, Tanoy here. Building interactive websites which are proficient for the users is my passion. I am a *Frontend Developer*. In the initial days, I was struggling as a learner. But my not giving up approach helped me a lot that time. I just love the environment of the Software Development as it is the field of continuous learning. I want to learn other possible tech stacks while working on the stacks I know. Thank You !

React | JavaScript | Html | Css | BootStrap | Tailwind | Gsap | Git | Github
